

*Ken Kiff.*

*The way he expresses anxiety and emotional distress is astonishing.*

*Ken Kiff experimented with free painting-*

*which was painting whatever that came to his mind-*

*The images he created surprised him and that is when he delved into*

*Psychotherapy. He deals with serious subjects with an incredible sense of humour.*

*Ken Kiff was inspired by Joan Miro and Paul Klee.*

*With Ken Kiff's paintings, the chaos of the colours stands out-*

*I really adore the soft texture of his paintings.*
